

To: All CDBG-DR Grant Agreement Grantees,
Subrecipients and Project Contractors

From: Texas General Land Office

Date: October 10, 2012

Re: Round 2 Grant Agreement Article 5.01(c) Revision

This is a Technical Guidance Letter ("TGL"), as defined in Article 1.04 of all Round 2 grant agreements between the Texas General Land Office ("GLO") as administrator of the U.S. Department of Housing and Urban Development's Community Development Block Grant Disaster Recovery ("CDBG-DR") program and program grantees and subrecipients ("the Round 2 grant agreements").

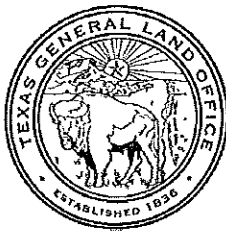

As stated in Article 1.04, a TGL is an instruction, clarification, or interpretation of CDBG-DR program requirements, issued by the GLO, to which specified program participants are subject. This TGL applies to all grantees and subrecipients under the Round 2 grant agreements, and to all contractors on CDBG-DR program projects therein specified.

Article 5.01(c) of the Round 2 grant agreements directs grantees and subrecipients to obtain DUNS numbers and CAGE codes necessary to CDBG-DR program grant administration through the federal government's former Central Contractor Registration ("CCR") website, <https://www.bpn.gov/ccr/>. Effective July 30, 2012, however, the federal government has transferred the former CCR function to its new System for Award Management ("SAM"), and the CCR website redirects to the SAM website. There has been no change in the applicable assistance telephone number.

Consequently, in accordance with Article 8.16 of the Round 2 grant agreements, the GLO hereby revises Article 5.01(c) of all the Round 2 grant agreements to state the following:

The DUNS number and CAGE code must be reported to the GLO for use in various grant reporting documents, and may be obtained by visiting the System for Award Management web-site at:

<https://www.sam.gov>

Assistance with this website may be obtained by calling 866-606-8220.

Please refer any questions or concerns regarding this TGL to:

Monica Bosquez Mota
